##### FEEDING DIRECTIONS

Feed free choice or .25 pound per head per day. Contact Rowe Nutrition LLC for additional feeding instructions.

**Bovacillus™**

- ◆ Contains Bovacillus™, a sustainable solution to aid in the health and performance of cattle.
  - ⇒ Consistent results against coccidiosis challenges
  - ⇒ Consistent manure
  - ⇒ Consistently healthy calves
- ◆ The resilience and versatility of Bovacillus™ allow this new technology to be used in a broad array of applications to aid in the health and performance of cattle.

##### Features & Nutritional Benefits

- ◆ **FORTIFIED WITH NATURAL COCCI CONTROL**
- ◆ A dual purpose free choice mineral formulated to exceed the supplemental vitamin, trace and major mineral requirements of beef cows and goats on hay or pasture specifically intended for AI, donors and embryo transfer operations for use in cows, heifers, bulls & goats. Intended to improve heats and conception along with semen quality in bulls and bucks.
- ◆ Use 30-60 days prior to the start of and 30 days after the end of breeding season.
- ◆ B-vitamins for stressful situations when the rumen is not functioning 100% including biotin for hoof and skin health.
- ◆ High level of Folic Acid as a possible reduction of early embryonic death in early term cows and does.
- ◆ Zinpro Zinc Amino Acid Chelate, Manganese Amino Acid Chelate, Copper Amino Acid Chelate and Cobalt Amino Acid Chelate for improved trace mineral digestibility.
- ◆ Organic Selenium Yeast for improved Selenium Digestibility.
