

RABBIT

ROWE RABBIT 16-18

OMEGA/ AMINO PELLET B113

COMPLETE SHOW FEED FOR RABBITS

Medicated

For the prevention of coccidiosis caused by Eimeria Stiedae

Active drug ingredient

Lasalocid..... 113 gms/ton

GUARANTEED ANALYSIS

Crude Protein, Minimum.....	16.00%
Lysine, Minimum.....	.87%
Methionine, Minimum.....	.25%
Crude Fat, Minimum.....	3.95%
Crude Fiber, Minimum.....	17.00%
Crude Fiber, Maximum.....	22.00%
Calcium (Ca), Minimum.....	0.60%
Calcium (Ca), Maximum.....	1.10%
Phosphorus (P), Minimum.....	0.45%
Salt (NaCl), Minimum.....	0.25%
Salt (NaCl), Maximum.....	0.75%
Vitamin A, Minimum.....	2,500 IU/lb
Vitamin D3, Minimum.....	500 IU/lb
Vitamin E, Minimum.....	40 IU/lb

INGREDIENTS

Forage Products, Roughage Products, Processed Grain By-Products, Plant Protein Products, Cane Molasses, Lignin Sulfonate, Calcium Carbonate, Salt, Montmorillonite Clay, Vegetable Oil, Flaxseed, L-Lysine, Folic Acid, Monocalcium Phosphate, Copper Sulfate, Yucca Schidigera Extract, Choline Chloride, Methionine, Vitamin A Acetate, Vegetable Oil, Vitamin E Supplement, Vitamin K Supplement, Iron Sulfate, Organic Selenium Yeast, Zinc Sulfate, Manganese Sulfate, Biotin, Niacin, Vitamin D3 Supplement, Cobalt Sulfate, Iodine, Thiamine, Calcium Pantothenate, Sodium Selenite, Vitamin B12 Supplement, Riboflavin Supplement, Pyridoxine Hydrochloride, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Copper Amino Acid Complex, and Cobalt Glucoheptonate.

FEEDING DIRECTIONS

Feed continuously as sole ration up to 6 ½ weeks of age

WARNING: For rabbits (up to 6.5 weeks of age) only

CAUTION: The safety of Lasalocid for use in unapproved species has not been established. Do not allow horses or other equines access to feed containing Lasalocid as ingestion may be fatal.

We have used collective terminology on our tags for formulation integrity. Please contact Rowe Nutrition LLC for more specific ingredient information.

FEATURES & NUTRITIONAL BENEFITS

- ◆ **High levels of Alfalfa Meal** - see and smell the difference compared to other major brands
- ◆ **Omega -3 Fatty Acids** - for improved ratio of Omega-6 to Omega-3 fatty acids for healthy skin and coat condition
- ◆ **Added Folic Acid** - to support reproductive health
- ◆ **Chelated Trace minerals** - along with Organic Selenium Yeast for higher digestibility of nutrients and improved fertility
- ◆ **Higher than normal levels of B-Complexes** - for health and production benefits
- ◆ **Complete Feed** - no additional feedstuffs or supplements are required
- ◆ **Fixed Formula** - all Rowe formulations maintain the same ingredients in the same percentages continuously
- ◆ **Guaranteed Levels of Amino Acids** - to improve levels and ratios of essential amino acids and increased protein equivalency dedicated to improved milk production, feed conversion, muscle development, rate of gain and fur enhancement
- ◆ **Added Yucca Schidigera Extract** - for reduction of ammonia levels
- ◆ **High Quality Fiber** - along with other proven nutrients to maintain gut health, stimulate gut motility and reduce fur chewing. Low fiber high starch diets result in gut hypomotility, reduced cecotrope formation and prolonged retention time in the hindgut which often results in enteritis. Enteritis is a primary gastrointestinal disorder and often results in diarrhea. This disorder is a result of an imbalance in normal microflora in the gut; this disorder is often caused by insufficient fiber and or too much starch in the diet
- ◆ **Rowe Rabbit Formulations** contain no corn, high levels of fiber and additional nutrients to reduce the incidence of enteritis, improve the immune system and general rabbit health
- ◆ When fed properly **Rowe Rabbit Formulations** exceed all essential nutrients required in a Rabbit's diet
